

# 260A / 24V ALTERNATOR

Shelhurst is proud to announce the development of the new Prestolite 260Amp/24Vlt EMI compliant alternator. This alternator incorporates the very latest in hairpin and electronic technology that delivers exceptional output for its small frame size. At 17Kg it is compact and powerful ideal for engine compartments with limited space.

- 260Amp/24Vlt
- High Temperature rated 100° C
- EMI compliant to Mil Spec 461F
- Non ITAR Options
- PAD or JB180 mountings available
- Compact design

For more information about this exciting project, or to register your interest, please contact Shelhurst Components (Pty) Ltd. Tel: +27 11 795-2130, Fax: +27 086 660 1666. Email: [sales@shelhurst.co.za](mailto:sales@shelhurst.co.za)
